

Financial Literacy

Nottoway County Literacy Program offers information on the topic of Financial Literacy. Financial Literacy is the education and understanding of various financial areas. The topic focuses on the ability to manage personal finances in an effective manner, and includes the knowledge of making appropriate on personal finance such as banking, saving, retirement and tax planning. The lack of financial literacy may lead to poor choices that can have a negative consequences on the financial well being of an an individual. Financial Literacy shows how an individual makes financial decisions. Our information can help a person develop a road map to identify what he earns, what he spends, and what he owes. For any further information on the topic, call Sally 434-645-9594.
