Summer Reading Program Success

(Crewe, Virginia – August 11, 2016) The Nottoway County Public Library system along with the Friends of the Library Blackstone would like to thank the McDonald's restaurant in Blackstone for partnering with us for the Feed Your Mind and Body Summer Reading Program.

McDonald's was able to present the Friends of the Library Blackstone with a check for \$600 due to the community's support of this program by purchasing Happy Meals during the month of June. The Friends support special programs and events throughout the year at the local libraries.

There were over 60 children who signed up to participate in the summer reading challenge and they read over 540 books during this 9-week program.

During the month of June children were able to meet historical, storybook and Star War characters, take pictures with these characters, do crafts, receive a FREE Library backpack and FREE books donated by the Friends of the Library.

Children and their families are invited to continue to visit the local libraries for the Imagination Works story times offered throughout the year. For more information on other programs and to learn what is happening visit your local library or check out the library web site at www.nottlib.org

The Nottoway County Public Library System provides all residents at no cost the resources for accessing accurate information, and the means for continual personal growth and prosperity.
