Literacy Program Offers Technology Assistance

(Nottoway County, Virginia – April 16, 2017)

The Nottoway County Literacy Program has a series of technology-related workshops scheduled for the coming weeks. Resume Development will be offered at the Burkeville library on Saturday, April 22 at noon. If you are not interested in writing or updating your resume but have general questions about creating word documents, you are welcome to attend.

Two topics will be addressed at the Burkeville Branch on Saturday, May 6. The first of these is Writing an Effective Cover Letter and this is set to begin at noon. At 1:30, the Resume Development workshop will be repeated. Like the April workshop, if you have more general questions about creating word documents, you won't be turned away.

The final workshop in the employment series is planned for 2:00 p.m. on Saturday, May 20 at the Crewe Library. The topic for this session is LinkedIn and Your Job Search, but persons with more general internet-related questions are also welcome. To register for any and all of these workshops, please call Literacy Program Director Sally Crager at 434-645-9594.

The Library has also scheduled two BYOD Question & Answer sessions. If you have a tablet, eReader, or other device and need help getting started with Zinio (free, digital magazines) or Overdrive (free, eBooks and eAudiobooks), you are invited to come to the Burkeville Library on April 22 from 10:30 to noon or to the Crewe Library on May 20 from noon to 2:00.
